Automatic Extensions

An automatic extension of time for filing the Net Profit License Tax Return will be granted for a period not to exceed any extension granted by the Internal Revenue Service for the filing of the federal income tax return for the same year. The extension request must be a written request properly signed by the licensee or a duly authorized agent and received on or before the due date for filing. **A copy of the federal Form 4868, 8736, or 7004 for the same year may be used for the written request, provided that the licensee's federal identification number used for occupational license tax reporting purposes is plainly noted thereon.** The extension request submitted by the licensee or his agent shall set out the licensee's name and account number maintained for filing purposes, the period for which the extension of time for filing is desired, the length of extension and reason therefore.

An automatic extension of time for filing the Net Profit License Tax Return does not extend the time for payment of the license tax. Payment of the estimated license tax liability must accompany the request for extension. Merely sending a tentative or estimated payment is not an acceptable request for an extension, and the written request for the extension must be on a separate paper from the check by which any estimated payment is made.

Interest at the rate of twelve (12) percent per annum shall apply to any unpaid license tax during the period of extension and shall be included with the amount remitted in payment of the license tax at the time of filing the Net Profit License Tax Return. No penalty shall be assessed in those cases in which all filing and payment requirements have in good faith been fulfilled and the final license tax and interest is paid with the filing of the Net Profit License Tax Return within the period as extended. The required estimated license tax payment is presumed to have been made in good faith provided that the taxpayer remits with the timely filed extension request 50% or more of the license tax liability as indicated on the extended Net Profit License Tax Return.

Any automatic extension shall be granted with the understanding that all prior filing and payment requirements have been fulfilled. However, if upon further examination it becomes evident that prior filing and payment requirements have not been fulfilled, interest and penalty shall be assessed in full and in the same manner as though no extension had been granted.
